### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

- Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 4, 6-19 and 21, drawn to a method, computer program and computer system for inserting an object into table, classified in class 707, subclass 2.
  - II. Claim 2, drawn to a method for retrieving a version of a requested object according to configuration ID and workspace, classified in class 707, subclass 3.
  - III. Claim 3, drawn to a method for managing configurations of objects by associating design time and run time with persons and software application programs, classified in class 707, subclass 102.

- The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. For example, Group I directed to a method, computer program and computer system for inserting an object into table, Group II directed to a method for retrieving a version of a requested object according to configuration ID and workspace, Group III directed to a method for managing configurations of objects by associating design time and run time with persons and software application programs. See MPEP 806.05(d).

- Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- Applicants are advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

- Applicants is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CR 1.48(b) and by the fee required under 37 CFR 1.17(i).
